## **CLOSED – Town of Armenia Boat Landing and Fishing Pier**

Due to significant damage caused by ice shoves, Wisconsin River Power Company (WRPCO) has closed the town of Armenia boat landing (located at 10<sup>th</sup> and 19<sup>th</sup> streets) and adjacent fishing pier until further notice.

The ice shoves have severely damaged the boat landing's rip-rap, pushed boat ramp planks upward and completely removed the fishing pier's support foundation. In addition to the damage to the boat ramp and fishing pier, approximately 600 feet of shoreline stabilization will need to be replaced.

The boat landing and fishing pier are the only two recreation amenities to be closed. WRPCO strongly urges recreation users to exercise caution if using the adjacent shoreline, as rip-rap there has also been damaged by the ice shoves.

Recreation users are able to use the Juneau County Wilderness Park Boat Landing located approximately two-and-a-half miles to northeast of the boat landing. [A figure outlining the route is included for your reference.](#)

The boat landing and fishing pier are anticipated to remain closed throughout the recreation season while WRPCO obtains necessary local, state and federal approvals to make repairs. WRPCO will post updates on when repairs will be complete on its website, [wisconsinriverpower.com](http://wisconsinriverpower.com).
