7	Wayside Point	A	Necedah Lake Dam
8	Petenwell Powerhouse and Landing	B	Historic Site, Old Dry Lake Bed.

Boater Suitability Zone Descriptions	
<b>Least Restricted</b>	Generally suitable for power boating, sailing, water skiing and other uses that require considerable open space and water depth to maneuver and avoid conflict.
<b>Somewhat Restricted</b>	Suitable for most fishing boats, pontoon boats and shallow draft sailing. Not suitable for water skiing, deep-draft boats or other high-speed uses that require open space and uniformly deep water.
<b>Restricted</b>	Areas only suitable for canoeing and small fishing boats with shallow drafts. This area typically has shallow depths, submerged hazards and wildlife habitat considerations.

Note: The boater suitability zones are approximate and may not always represent actual boating conditions. As always, extreme caution should be exercised while recreating on the flowage.
